## The May Day Mystery

At the [University of Arizona](#) , alumni, alumnus, employees, students, and many many curious others have become intrigued with the University of Arizona's [May Day Mystery](#) ([see article](#)) since it began years ago one May Day in the very early 1970's.

Since then on every [May 1st](#) ([a.k.a. May Day](#) and [a.k.a. Law Day](#)) and at other seemingly various and random times during the year, unknown persons or a secret society possibly along the lines of a Masonic or Rosicrucian order, or other entities somehow historically related to the University of Arizona have been posting [cryptic](#) advertisements in the universities newspaper the [Daily Wildcat](#). Items have also been mailed, posted, appeared in other places and venues.

The classified and page advertisements posted appear mysterious, bizarre, logical, even seemingly illogical and highly addictively curious at the very least.

The ads messages often consist of in depth references and pieces of world history, world geography, higher mathematics and sciences, current and ancient world wide languages,

ancient events, world religions of ancient times and today, looks back into antiquity, puzzles and riddles, and an as yet undiscovered mysterious possible treasure of an unknown type or kind.

 On 8/4/00, the *City of Richmond* cleared Hampton Roads at 1203 Hours with the Brusher Doubleloon submerged among the vats in the forward compartment. Gliding over the Northeast arc of the Gulf Stream, Capt. Morgan tacked into the Açores passage at 40°N, 40°W., coasted close-hauled under the lee of São Miguel and observed radio silence over the length of the Gibraltar Ridge until attaining The Mark off Cabo de São Vicente. Correcting course as per (5/1/90, Luther; Kalman Filter *sub specie* Clarendon quote, *idem*), Capt. Morgan laid on sail, entering the Tejo channel at 1253 Hours, 8/22/00. Coimbra dispatched Ridley & Latimer to Rua Castilhos, 20, 1250, Lisbon, where they counter-signed for receipt of the Brusher Doubleloon. Mistah Kurtz is the registered Trustee. Transfers are to be processed as per ISO 4217, DEM. The Hirelings, with their Lilliputian minds wired at 33 MHz in linear progression ("shape without form, shade without color") can audit balance and credit data until their doom overtakes them, as they will see "nothing before the time," being drowned in the darkness of Exodus 10:23. The Pigs, meanwhile, continue to slumber in the miscalculation that they are encountering arcane ensorcellment (Cf. *Il Pendolo*, capitolo 106: "erano un borborismo e promettevano un segreto"--Lia la donnaccia!)-when what will actually engulf them is the crude reality of Regulation E, 12 CFR Part 205. After producing a protractedly tedious etiological taxonomy of the natives' loathsome antics "in death's other kingdom," The Little Orphan Children have concluded their surgical prognosis, *vis-à-vis* implementation of The Agenda of 5/72: "complete resection," cf. An enterprising student employee of the Daily Wild Cat, and a foreign student attending the University of Arizona in Tucson (see video) in the mid to late 1990's began noticing the sometimes

often very mysterious cryptic advertisements and soon began checking all around campus for more information on what they might possibly mean, how often they came out, and even possibly who or what organization could have written them.

Those inquiries soon got the student employee very curious. He quickly started a collection of the advertisements, painstakingly scanning them onto a computer along with the help of his black cat, and put together the first serious comprehensive information website for deeper analysis of the entire mystery.

**Leitmotiv:** "Un grand destin commence, un grand destin s'achève."--Corneille  
Both the Pigs and the Revisionists are struggling to extrapolate third-order logic by observing first-order phenomena--the least-dull among them could not distinguish 18-year Edradour from anti-freeze. The Revisionists, however, now suspect there is indeed a [stempelglanz] third instance of the [circa 12/10/1041] *hismamenon nomisma* (sub specie bronze pattern, as per L.R. Sear, Byzantine C. & T.V., 1987, © 1825A, ISBN 0-7134-7740-7). Correlate coordinates as per Sear's [2] locations, *vide ut supra*. When configuring registers for the extraction à la Cauchy of the cybernetic seal, apply the restrictive definition of limit ordinals after quadratically factoring: "Venienti occurrite morbo."--Persius. Then derive the apex from ADW 5/1/89 by application of the Internal metric found in "only drowning men can see Him."

★ { Coimbra cannot currently provide transport and the *Arbella* must remain moored off Nantucket until Quinquagesima.

In binary congruence with 3/8/89, Chemnitz<sup>1</sup> has provided a *zabra* (at the point of physical presence: *ATZAURA*--"consuetudo loci observanda est") for the initial transfer.

★★ { Therefore, THE ORPHANAGE has issued Letters of Marque which require the immediate attention of (5/1/97, *Rive Gauche*) as per:

κέλευσόν με ἔλθειν πρὸς σὲ ἐπὶ τὰ ὕδατα

<sup>1</sup>"Si Martinus non fuisset, Martinus vix stettisset."

His effort soon drew the attention of yet another student who has proved very elusive not only then, but over the years since that time listed in university records as Winston F. Reynolds.

Within a very short time after the student had started the online website, various communications from all around the world that claimed they were part of the mystery began finding their way to the student in many different forms. Letters, parcels, cryptic messages, ancient gold coins, historic items, manuscripts, and other materials began arriving by mail, email, being anonymously dropped off, and in other often bizarre methods.

Very soon afterwards, records show that Winston Reynolds suddenly began making regular trips overseas. Travel records indicated visits to London, Paris, Moscow, Brussels, Stockholm, Berlin, Mexico City, Peking, Tokyo, Geneva, Madrid, Bombay, Cairo, Istanbul, and a private audience with numerous religious officials in Rome, Italy.

The other student who had been active on the *Daily Wild Cat* publication also appeared to have suddenly disappeared at one point and engaged in a very mysterious cross country trip around the United States before returning back to Tucson, only to leave once again shrouded by mystery immediately after graduation ceremonies.

Next, not long after his graduation event, the young man was traced to the area in the Northwest of the United States that is known to the FBI as the landing area of the infamous [D.B. Cooper](#) who had disappeared with approximately \$250,000.00 dollars (two hundred fifty thousand dollars) after hijacking then mysteriously parachuting out of a commercial jet airliner in 1971 leaving no clues at the time of his whereabouts.

As for the mysterious Winston Reynolds, he seemingly quickly went from life in a dorm room and getting around as many students on the University of Arizona campus, to a nice home located off campus, a new BMW for a few weeks,

before being seen regularly driving a 1970's era XKE Jaguar Roadster.

Yet not long later, Reynolds was also observed on many occasions and always at night, being picked up by an all-black 1970's era Bentley Sedan while still attending classes as a student.

One of his classmates confided to a *Daily Wild Cat* reporter, "Winston Reynolds was a really top student, and has to be one of the smartest guys I ever met. He had this strange charisma that kind of attracted you if he got close to you like he had magnets in his pockets or something, and no matter what subject came up in a campus conversation he seemed to always have had at least some personal experience to draw from about it. He always just seemed like a little of him was mentally someplace else, working on something, holding some great untold unknown secret."

Mysteriously, Winston Farnsworth Reynolds completely vanished only a few hours after his graduation ceremony at the University of Arizona.

Over the years although seemingly living in one area or another according to reports and eye witness accounts of sightings his actual whereabouts to this day remain completely unknown.

Many unanswered questions surrounding the [Mayday Mystery](#) continue to haunt the grounds of the University of Arizona campus and far beyond.

Are the mysterious postings and happenings all from former students of the past connected somehow to students or organizations that are still on campus?

Could the May Day Mystery possibly be part of a [secret](#) campus group or secret society that began it all in those underground days of the early 1970's at the university and is now faithfully continuing the efforts after it mysteriously surfaced years ago, or possibly even long before that never revealing itself?

Are there new members still being recruited from certain parts of the ranks of the ever incoming generations of new and current University of Arizona students?
